

## Broadgate Tower/201 Bishopsgate

- Project name: Broadgate Tower/201 Bishopsgate
- Location: London, UK
- Project value: Over £500.000
- Duration: approx. 14 Month
- Client: Josef Gartener GmbH
- Main contractor: Bovis lend lease
- Architect: SOM Skidmore, Owings & Merrill Architects

### **Description:**

Another two impressive office buildings with a peerless glass and steel architecture built to enhance the heart of the British capital. The Broad Tower CTBUH 'Best Tall Building Award' Europe Winner 2009 and the 201 Bishopsgate are linked by a glass covered passageway with shops and cafes that helps to create a relaxed atmosphere within the renowned Broadgate business district in the City of London.

**Skyklass** was responsible with the installation of the following:

- Over 4200 internal blinds in both buildings
- Broadgate Tower - Stainless steel cladding – Entrance Lobby
- Broadgate Tower – Ground Floor unitised curtain wall system
- Broadgate Tower – Glass Covered Canopy
- Roller shutter gates
- Metal heavy duty gates
- Fire doors installation
- Copings and louvres on the 37th Floor
